Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
3. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over the admitted prior art in the instant specification in view of Lichtinger et al (patent no. 6502048) submitted by applicants.

Claim 10 as newly presented is merely the combination of the original claims 1 and 4, hence, the reason for the rejection based upon the combined admitted prior art and the Lichtinger et al reference as set forth in the last office action is maintained and incorporated herein by reference.
4. In the amendment, applicants merely alleged that Lichtinger et al reference fails to teach the threshold correcting circuit which corrects the passenger identifying threshold value using a

Art Unit: 3661

correction value which is provided by the aging -caused drift estimated by the aging -caused drift estimating circuit and wherein the correction value is limited to within a range between an upper and a lower limit of the aging-caused drift. The examiner strongly disagrees with such allegation. Applicants' attention is directed to column 3 and figure 4 of the Lichtinger et al reference in which it clearly teaches that the controller 30 (equivalent to the claimed aging-caused drift estimating circuit and threshold correcting circuit) is being employed to provide a correction value (see value 76) and that such correction value is limited to within a range between an upper and a lower limit of the aging-caused drift as claimed (see range 78 in figure 4).

5. Claims 1 and 3-9 are currently considered allowable over the art of record.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
